- ❑ Create an HTML web page (e.g. first_page.html) that specifies a page that contains a heading and two paragraphs of text. Use the HTML tags. As the texts in the heading and paragraphs you can use any texts you like.

- Add an ordered and unordered list to this web page.
- Add an image to your web page.
- Add a table

The screenshot shows a web browser window with the title bar "My First Web Page". The address bar shows the path "C:/Users/USERWD/Desktop/جداول20%_مجلد/first_page.html". The main content area displays the following text:

Welcome to My Website

This is the first paragraph of text on my webpage. I am learning HTML and this is my first assignment.

This is the second paragraph. HTML is the standard markup language for creating web pages.

Ordered List - My Daily Tasks

1. Wake up
2. Brush teeth
3. Have breakfast
4. Study HTML
5. Complete assignments

Unordered List - My Hobbies
